Verify

Run

1. User picks a pre-existing collection or leaves the drop down empty

2. If a collection is picked, we popupate certain information from that collection

3. User can edit the content, or in case there is collection picked, then the user is expected to add the content

4. User can optionally add keywords and synonyms.

5. Once the information is populated, the user can click verify.

6. The run command will remain disabled until verify is successful. Once the run is enabled, they will click it

Name (job title)	Age ▼	Nickname	Employee ▼
